Whereas, _____

(Name of Applicant)

(Mailing Address of Applicant)

Hereinafter termed the Applicant, requests permission and authority to do certain work herein described on the right-of-way of the Mt. Vernon Township Highway known as _____ in Mt. Vernon Township. The work is described in detail on the attached Sketch and/or as follows:

The applicant shall be responsible for all damage and assume all liabilities for construction, location, operation and maintenance of said utility.

A copy of this permit shall be in the possession of the Construction Foreman on the job site for inspection by the Mt. Vernon Township Highway Department personnel.

Right-of-Way (R.O.W.): It is the applicant's responsibility to establish the correct property line. This permit only grants applicant permission and authority to do certain work herein describe on the R.O.W. of Mt. Vernon Township Highways. This permit does not authorized work within the township R.O.W.

It is understood that the work authorized by this permit shall be completed within 6 months after the date this permit is approved; otherwise, the permit becomes null and void.

All surfaces, if necessary, shall be restored to the original condition according to I.D.O.T. Road and Bridge current edition specifications. The proposed work shall be located and constructed to the satisfaction of the Township Engineer or his duly authorized representative. No open trenches immediately adjacent to the pavement are allowed to be left open overnight.

The applicant shall at all times conduct the work in such a manner to minimize hazards to vehicular or pedestrian traffic. Traffic controls and work site protection shall be in accordance with the applicable requirements of chapter 6 (Traffic Controls for Highway Construction and Maintenance Operations) of the Illinois Manual of Uniform Traffic Control Devices for Streets and Highways. Work shall be done only during daylight hours.

No excavation within 5 feet of the roadway will be permitted. Lines shall be buried at least 36 inches below existing ground line and within 5 feet from edge of R.O.W. where practical. Lines below roadway shall be bored at a depth no less that 42 inches below the ditch flow line elevation.
